Soft Skills

Passionate & creative · Adaptable · Team
player · Client-oriented · Strategic &
structured · Autonomous

Available — Switzerland · Open to remote, hybrid or on-site

Proactive project professional with hands-on experience launching and scaling financial products, implementing **CRMs**, and driving **cross-functional execution** across product, engineering and business teams. Rare blend of **fintech product experience** and **software engineering background** — I bridge product and engineering, building clarity from complexity in fast-paced environments — equally comfortable remote, hybrid or on-site.

● Professional Experience

Project Lead — Retirement Planning Division

09/2025 — Present

FINKE Swiss · Calaotrade — Switzerland

- Drive end-to-end rollout of a new financial product line (**3rd pillar, vested benefits, retirement planning**)
- Own the **CRM implementation**: requirements, vendor selection, specifications, adoption
- Write cahiers des charges (technical & functional specs) and internal playbooks
- Identify workflow bottlenecks and design scalable process improvements
- Coordinate alignment between sales, operations and leadership
- Currently preparing **AFA** certification

Head of Tax & Product Development

12/2021 — 02/2025

Planifique — Geneva, Switzerland

- Launched a **new financial product from zero to market**: scoping, design, pricing, go-to-market
- Built the full delivery lifecycle: audits, retirement, mortgage, marriage/PACS tax optimisation
- Managed KPIs across commercial pipeline and service production
- Produced executive-level reports and insights for strategic decision-making
- Drove cantonal tax analysis to optimise client outcomes

Web Developer — Agile Delivery

12/2020 — 09/2021

Sopra Steria — CNAM · Lyon

- Delivered Java web applications in Agile squads for a major French client
- Cross-functional collaboration with business analysts, QA and operations

Mobile Application Developer

09/2019 — 11/2020

Sopra Steria — bioMérieux · Lyon

- Built mobile apps in Angular, Java, SAPUI5 & Fiori Elements
- Produced structured technical documentation (Markdown / MKDOC)

SAP Technical Consultant

09/2018 — 09/2019

TVH Consulting — Lyon

- Managed incident triage & resolution across multiple enterprise clients
- ABAP development, bug fixing, and technical documentation

Early Engineering Roles

2017 — 2018

CalaoSoft & W3plus — France

- Full-stack web development · Mobile testing & QA · Feature validation

● Education & Certifications

AFA Certification

In progress

Professional certification · Switzerland

Engineering Degree — Computer Science (Mobile)

2016 — 2021

Science U — Lyon, France · 5-year curriculum, work-study
